(57) Claim

1. An animal growth promotant comprising microgranules having a core consisting of one or more immobilized enzymes selected from:

- (i) protein digesting enzymes;
- (ii) carbohydrate digesting enzymes;
- (iii) fat digesting enzymes; and
- (iv) fibre digesting enzymes;

the core being encapsulated within a water soluble film, and coated with an enteric coating comprising an alkali soluble, acid insoluble polymer, or a high molecular weight polymer whose structure is substituted with or contains windows of fatty acid or other material capable of being solubilized by intestinal juices.
